

CO.ME

MADE IN ITALY

GENERAL CATALOGUE

Quality Doesn't Cost... It Pays!

SINCE 1964

Lavoriamo il ferro con estro e dedizione, lo tagliamo, lo saldiamo, lo pieghiamo e lavoriamo con maestria. L'apparente semplicità dei nostri prodotti è frutto di una tecnologia complessa, che garantisce precisione del lavoro, robustezza, leggerezza e durata nel tempo.

La bellezza dei nostri attrezzi rievoca la grande tradizione delle costruzioni e delle rifiniture decorative veneziane.

In un settore in cui molti hanno spostato all'estero la propria manifattura, noi produciamo orgogliosamente in casa nostra, in Italia: ci piace controllare ogni passo del nostro processo produttivo e garantire ai clienti il mantenimento di tutte le promesse fatte, inclusa la vera origine del prodotto.

Gli impianti robotizzati ci consentono di produrre i volumi richiesti in tempi brevi con difettosità prossima allo zero; ma l'ultima parola è sempre lasciata all'esperienza pluridecennale dei nostri tecnici.

CO.ME è un team affiatato di persone che si sono assunte l'onere e la responsabilità di dare una seconda vita alla loro azienda, dopo l'uscita dei fondatori. Le quote aziendali sono oggi possedute da un gruppo selezionato di collaboratori.

Con lo stesso spirito innovativo, essi stanno dando nuovo impulso a questa tipica piccola Azienda del Nord Est italiano, ancorata alla realtà locale, ma protesa verso i mercati di tutto il mondo.

CO.ME
MADE IN ITALY

We work steel with inspiration and dedication, we cut it, we weld it, we bend it and finally we work it with craftsmanship. The apparent simplicity of our products is the result of a complex technology ensuring accuracy of work, robustness, lightness and durability.

The beauty of our tools evokes our great tradition in construction and in Venetian decorative finishing.

In a sector where many have moved their plants abroad, we proudly produce in our homeland, in Italy. Checking by ourselves every step of the production process we guarantee to our customers the veracity of the promises made, including the true origin of the product.

Our automated plants enable us to produce the required volumes in short times, with near-zero defects. Nevertheless the last word is always left to the experience of our technicians.

CO.ME is a close-knit team of people who have taken on the challenge and responsibility of giving a second life to their Company, after the founders passed. The Company shares are now held by a selected group of workers.

With the same innovative spirit they are giving new breath to this typical small North-Eastern Italian Company, anchored to the territory but reaching out to the World.

TECHNICAL INFORMATION

0.3 mm flexible stainless steel blade for easy application of finish coat

Stiff backing 0.6 plate to give stability, balance and right flexibility

Die-cast aluminium shank to give strength and resistance

Rounded edges to ensure smooth finish

Bi-component rubber cylindrical handle for a good grip

Stainless steel rivets between backing blade and shank to give superior strength and flatness

Special adhesive foam to connect the blade and the stiff plate. This foam can resist solvents and extreme temperatures

PURPOSES

- Venetian plaster
- Finish plastering
- Drywall skim coat
- Fine finishing concrete
- Microcement
- Large stencil works

UTILIZZI

- Stucco Veneziano
- Rasatura
- Cartongesso
- Microcemento
- Finiture

CONSIGLI PER LA CONSERVAZIONE E LA MANUTENZIONE

I nostri frattoni in polycarbonato sono protetti da un film adesivo. È indispensabile rimuovere la pellicola protettiva. Per la pulizia è vietato l'uso di alcool o benzoli in quanto potrebbero causare l'insorgere di micro fessure interne. Si consiglia di pulire con un panno morbido o con una spugna bagnata. Nel caso di molto sporco si può aggiungere all'acqua calda del detersivo neutro non abrasivo.

TIPS FOR CONSERVATION AND MAINTENANCE

Our polycarbonate trowels are protected by an adhesive film. It is essential to remove the protective film. For the cleaning it is forbidden to use alcohol or benzols as they could cause the occurrence of micro internal cracks. It is advisable to clean with a soft cloth or sponge, wet with water. In case of very dirty surface, non-abrasive neutral detergent can be added to hot water.

CONSEILS POUR LA CONSERVATION ET L'ENTRETIEN

Nos platoirs en polycarbonato sont protégées par un film adhésif. Il est essentiel d'enlever le film protecteur. Pour le nettoyage, il est interdit d'utiliser de l'alcool ou des benzols car ils pourraient provoquer l'apparition de micro-fissures internes. Il est conseillé de nettoyer avec un chiffon doux ou une éponge humide avec de l'eau. En cas de surface très sale, un détergent neutre non abrasif peut être ajouté à l'eau chaude.

TIPPS ZUR ERHALTUNG UND WARTUNG

Unsere Polycarbonat-Kellen sind durch eine Klebefolie geschützt. Es ist wichtig, den Schutzfilm zu entfernen. Für die Reinigung ist die Verwendung von Alkohol oder Benzol verboten, da dies zu internen Mikrorissen führen kann. Es ist ratsam, mit einem weichen Tuch oder Schwamm, nass mit Wasser zu reinigen. Bei stark verschmutzter Oberfläche kann dem heißen Wasser ein nicht scheuerndes, neutrales Reinigungsmittel zugesetzt werden.

CONSEJOS PARA CONSERVACIÓN Y MANTENIMIENTO

Nuestras llanas de polycarbonato están protegidas por una película adhesiva. Es esencial quitar la película protectora. Para la limpieza, está prohibido el uso de alcohol o benzoles, ya que podrían causar la aparición de micro grietas internas. Es aconsejable limpiarlas con un paño suave o una esponja humedecida con agua. En el caso de una superficie muy sucia, se puede agregar detergente neutro no abrasivo al agua caliente.

EXTRA *flexible*

EXTRA *light*

TECHNICAL INFORMATION

INOX blade: long-lasting and resistant.

Lightened ABS shank for high precision on movements.
No wrist stress.

Extraflexible blade 0.3mm thickness
for any kind of texturing
and glazes, adapting any wall.

Thinner wooden handle to fit even tiny hands.

Stainless steel rivets to guarantee a long lasting fix
between blade and shank.

MAIN PURPOSES

Metallic stuccos effects: the extraflexible blade
allows the applicator to move and adjust the grains
obtaining the typical effect usually done by a
standard brush but without leaving any bristle.

Application of smooth lime putties
as well as acrylic/lime hybrids
Low viscosity paints
Acrylic gels
Microcement

...BUT ALSO FOR:

Plastering curved surfaces like domes,
round surfaces, sinks and bathtubs
Epoxy resins and decorative concrete
Clay plasters
Compressing lime even 30 mins
after the 2nd coating

INFORMAZIONI TECNICHE

Lama in acciaio INOX: lunga resistenza nel tempo.
Fusione alleggerita in ABS maggiore precisione nei
movimenti. Nessuno stress al polso.

Lama extraflessibile da 0.3 mm per qualsiasi tipo
di velatura ed adattabile ad ogni superficie.

Manico legno più sottile per adattarsi anche alle mani
più piccole.

Rivetti in acciaio inossidabile per garantire un lungo
fissaggio fra la lama ed il supporto.

MAGGIORI POSSIBILITÀ DI IMPIEGO

Stucchi a effetto metallico: la lama ultraflessibile per-
mette all'applicatore di muovere le particelle granulose
di materiale creando il tipico effetto metallizzato che
solitamente viene invece creato con un pennello
(lasciando a volte peli) o una spatola in plastica.

Applicazione di stucchi effetto liscio così come ibridi
di minerali e acrilici
Pitture a bassa viscosità
Gel acrilici
Microcemento

...MA ANCHE PER:

Creare effetti su superfici curve quali cupole, archi,
vasche da bagno
Resine epossidiche e cemento decorativo
Stucchi a base argilla
Compressione del grassello già dopo 30 minuti dalla
seconda mano

GARANZIA GENERALE

CO.ME Srl si è sempre distinta per l'eccellenza delle materie prime e per l'accuratezza della lavorazione dei suoi prodotti in oltre 50 anni di successi sul mercato Italiano ed Internazionale.

I prodotti forniti da CO.ME sono garantiti privi di difetti di materiali e di lavorazione.

La garanzia si rivolge esclusivamente ai Clienti diretti di CO.ME e la responsabilità di CO.ME è limitata alla sostituzione o alla riparazione dei prodotti eventualmente riconosciuti difettosi, purché nuovi e purché la segnalazione di difettosità sia avvenuta entro 8 giorni dal ricevimento della merce. In nessun caso saranno oggetto di sostituzione i prodotti usati.

GARANZIA TAURUS WELDED

In aggiunta alla garanzia generale, CO.ME garantisce la robustezza della giunzione saldata tra lama e gambo della cazzuola, per 5 anni dalla data dell'acquisto.

La garanzia è limitata alla sostituzione o alla riparazione dei prodotti eventualmente riconosciuti difettosi, purché utilizzati correttamente. Sarà riconosciuta esclusivamente al Cliente diretto di CO.ME Srl.

DOCUMENTAZIONE

La garanzia in forma estesa Taurus Welded e contrattualmente valida si applica ai Clienti che ne facciano richiesta.

CO.ME
MADE IN ITALY

GENERAL WARRANTY

CO.ME Srl has always stood out for the excellence of the raw materials and the accuracy of the process of its products in more than 50 years of success on the Italian and International market.

The products supplied by CO.ME are warranted to be free from defects in materials and workmanship.

The warranty is exclusively geared to direct CO.ME Customers and responsibility to CO.ME is limited to replacement or repair of any defective products recognized, provided new and provided that the reporting of defects occurred within 8 days from receipt of goods. Under no circumstances, used products will be replaced.

TAURUS WELDED WARRANTY

In addition to the general warranty, CO.ME guarantees the strength of the welded joint between the blade and shank of the bricktrowel, for 5 years from the date of purchase.

The warranty is limited to replacement or repair of any products acknowledged to be defective, provided used correctly. It will be acknowledged exclusively to the direct customer of CO.ME Srl.

DOCUMENTATION

The Taurus Welded Warranty in extended form and contractually valid, applies to Customers who request it.
